

Unhappy with Your HR, Payroll, and Benefits technology? CAI has the Solution.

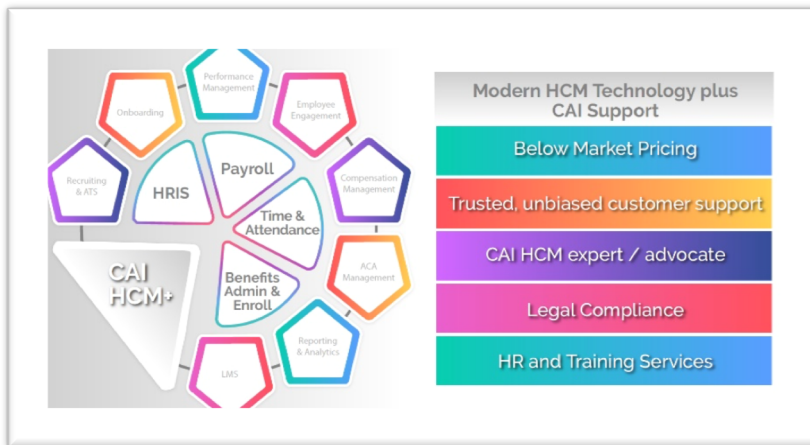

HCM technology, the crowded intersection of HRIS, Payroll, Benefits and other related HR software, promises efficiencies, delivers pain to many of those responsible for HR activities in small to mid-sized businesses...

Sound familiar?

In surveys and focus groups members laid out a challenge to CAI - *help them find a REAL solution.*

Today we introduce CAI-HCM⁺, an integrated and affordable HCM technology solution plus CAI's trusted HR support. With CAI-HCM⁺ you manage the *entire* employee lifecycle from one application. No more double-entry and buggy integrations. You can purchase the complete system or certain modules. And CAI's HCM Technology expert will support you from needs assessment through implementation.

Member Testimonial:

After 2 years of searching for the right HCM software our team felt like giving up!! We presented our challenge to CAI and our search was OVER!! CAI's knowledge of our business, the HCM technology world and by listening to the specific needs of our organization prompted them to recommend CAI-HCM+! CAI was with us from the initial intake call through our implementation and we never felt pressured. We now have a single platform managing our HCM needs!!
Patsy Machia, HR Director, ECVC
