

Founded With A Mission

Established During The #MeToo Movement

EasyLlama was founded in 2019 in light of the critical workplace issues that surfaced during the #MeToo movement. Nobody deserves to be a victim of harassment or discrimination, especially in their place of work.

Positive Feedback From The Start

It's clear a solution like ours has been eagerly awaited. Rapidly gaining in popularity, EasyLlama made its mark helping equip companies with engaging training that promote a safe, inclusive, and equitable work environment for all.

Continuing To Give A Helpful “Hoof”, Every Single Day

Especially now, amidst the Great Resignation, employees have a multitude of options in the job market. By investing in workplace training and education, you not only stay compliant, but also lower turnover by creating a culture employees want to stay a part of.

Why EasyLlama?

With the gravity and seriousness of the topics we teach, our goal was to create a brand learners would feel comfortable and at ease with.

A mascot, that would be a friendly guide through tough topics, thought-provoking questions, and sometimes somber materials. From these objectives, our Llama emerged - a smart and gentle animal known for building great relationships with humans.

Llamas are natural protectors, teachers and guides which make them the perfect mentor to accompany learners through the training modules.

From these two core values, the name EasyLlama was born and remains to this day, as our guiding principles of the impact we've promised to make.

I'M A FRIENDLY GUIDE, A
PROTECTOR, MENTOR AND A
GREAT LISTENER

“Creating a safe and inclusive workplace environment shouldn't burden teams, operational efficiency, or resources. Creating a great culture and safe workplace environment must be easy and accessible to all companies.”
