

Elevate your organization's internship program.

HOW SYMBA WORKS

A New Platform, Built For You

Manage Your Entire Program In One Place

Quickly onboard your interns, assign and keep track of projects, and track performance all in one place. Symba's platform helps you scale your internship program stress-free!

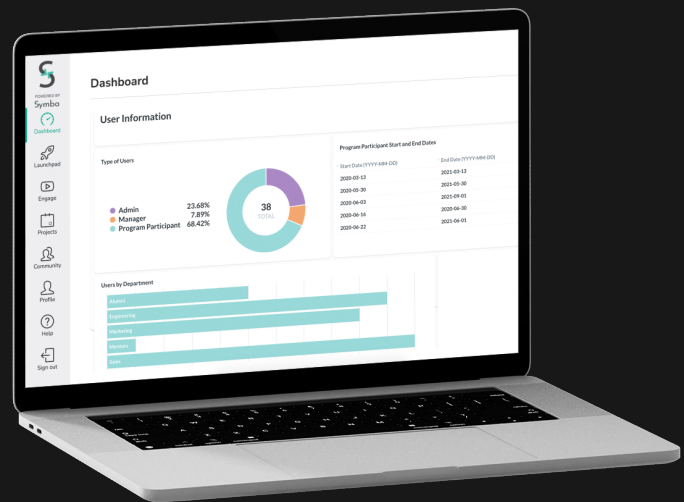

Easily Track Insights and Measure Success

Track the success of your program through beautiful graphs and visualizations. Need to know your interns' start and end dates? Want to track how many projects are completed? You can now study the analytics of your program in real-time.

Foster Community and Engagement

Bring your interns together through Symba. They can message other interns and managers seamlessly (even through Slack), search for skills to collaborate on projects, and much more. Connecting with your interns has never been easier.

15,000+

projects completed

80%

less time spent onboarding

600%

growth in programs

Symba has been such an invaluable partner in creating an amazing tool. It's intuitive, it's clean, and, best of all, it solves a lot of challenges and headaches you normally encounter in scaling programs.
