

# Expand Your Local Reach

## with Local Job Distribution

There's no denying the importance of local outreach, which is why DirectEmployers has developed a job distribution tool that provides Members access to an extensive directory of local and community-based organizations around the country. We've simplified the work for you, vetting each organization. We also give you the opportunity to put your own organizations into the tool based on company needs.

## BENEFITS

- ☐ Expanded reach to diverse audiences specifically geared toward veterans, individuals with disabilities, minorities, etc.
- ☐ Targeted outreach based on location to assist with state and/or municipal contract requirements
- ☐ Ability to create custom partners based upon individual needs and non-federal contracts

**Want to focus outreach to community-based organizations?**
